23/ To what extent, do the direct payment regulation create EU added value[5] to overcome rural areas challenges ?

[5] According to the EC, the added value “is best defined as the value resulting from an EU intervention which is additional to the value that would have been otherwise created by member states alone”.

61/ To what extent could the New Delivery Model[6] proposed by the Commission better address the challenges faced by rural areas?

[6] The proposal for a regulation on CAP strategic plans introduces a new delivery model, described by the Commission as a fundamental shift in the CAP, involving a shift from compliance towards results and performance. It includes a new distribution of responsibilities between the EU and Member States. A new planning process is proposed which will cover both Pillar I (direct payments) and Pillar II (rural development) of the CAP.

68/ To what extent, does the common organisation of the markets in agricultural products create EU added value[8] to overcome rural areas challenges?

[8] According to the EC, the added value “is best defined as the value resulting from an EU intervention which is additional to the value that would have been otherwise created by member states alone”.
