#EURRegionsWeek

Workshop description:

Addressing crisis, but also establishing sound and efficient long-term policies adopting legislation and regulation at the right government level (subsidiarity) and implementing these in a spirit of partnership and coordination between all levels of government (MLG) is essential.

The success of the EU is built on this concept of cooperation and solidarity between Member States and between regions and cities.

In this context, is MLG and active subsidiarity enough to ensure a sustainable recovery?
