TAMSALL Project: Objectives

Overall Objective:

To contribute to the development of qualitative local public services in Libya

Specific Objective 1

National and international cooperation of Libyan municipalities on **environment, youth, social and health** as well as **communication** services is improved.

Specific Objective 2

New or improved methodologies for planning and implementing local services are adopted by Libyan municipalities.

Multilevel Governance Approach

Why: to establish effective partnerships addressing technical issues on public services beyond administrative borders, together with all relevant national, regional and local stakeholders.

How: by laying down a common set of standards to improve consultation, participation and dialogue with public and private stakeholders during the planning, implementation, monitoring and evaluation of development programmes or initiatives at territorial level.

MLG approach in TAMSALL: by applying the MLG approach a public authority is able to include all relevant public and private stakeholders in the planning / implementation of a service, whether they are interested in its design (other administrative offices or supplier companies) or they are beneficiaries (citizens) or contribute to service implementation.

TAMSALL Target Municipalities

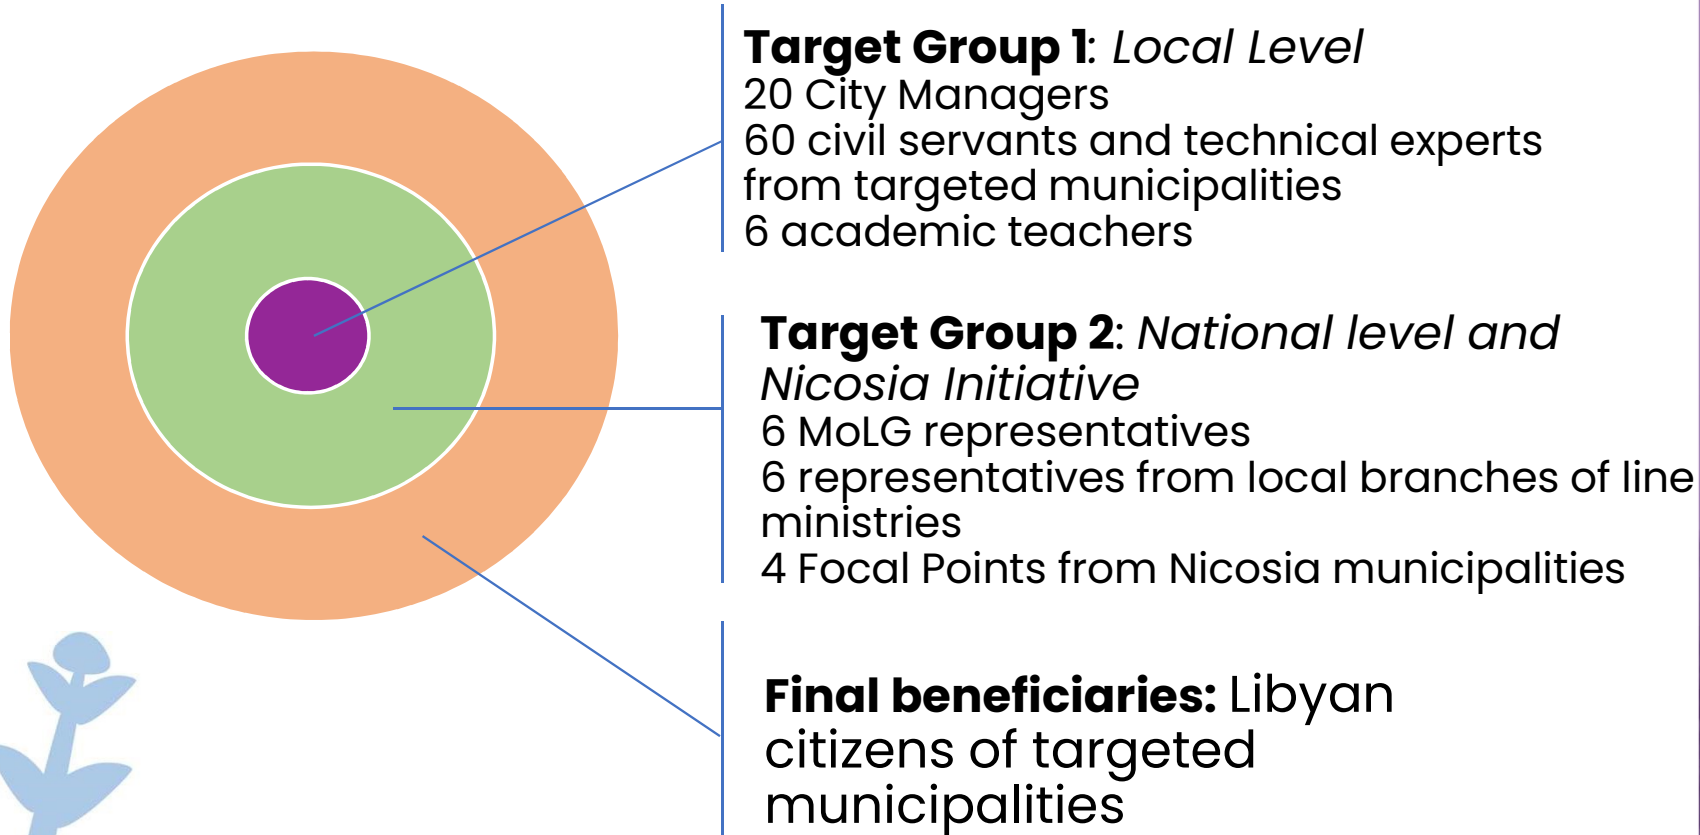

8 municipality members of CoR's **Nicosia Initiative:**

West: Tripoli, Zintan, Ghariyan
East: Tobruk, Benghazi
South: Sabha
Centre: Sirte, Zliten

12 municipalities to be
selected in *Jabal al-
Gharbi*
and *Nalut* districts, in
the area known as
Jebel Nafousa

TAMSALL Target Group

TAMSALL Project: Components

Component 1

Targets and
Instruments for MLG
approach

Component 3

Multilevel approach
for services delivery
on the ground – Pilot
Actions

Component 2

Capacity Building
on MLG approach for
development plans
and services
delivery

TAMSALL Project: Activities

Component 1

Targets and
Instruments
for MLG
approach

*Activity 1. **Assessment** of Municipalities' services provision within TAMSALL areas*

*Activity 2. **Benchmarking/Clustering** and selection of target municipalities*

*Activity 3. **Lessons Learned** from Nicosia Initiative and **modelling** of implemented projects and programmes*

*Activity 4. **Study Visit** on Multilevel Governance in EU or MENA region*

TAMSALL Project: Activities

Activity 5. City Managers' **Training**

Activity 6. Planning **Traineeship Visits**
and Capacity Building Actions

Activity 7. **Traineeship Visits on MLG**
approach for service delivery **in EU or**
MENA region

Activity 8. **Capacity Building Actions** on
MLG approach for service delivery in
Libyan municipalities

Component 2

Capacity Building
on MLG approach
for development
plans and
services delivery

TAMSALL Project: Activities

Component 3

Multilevel
approach for
services delivery
on the ground –
Pilot Actions

*Activity 9. **Environmental** services*

*Activity 10. **Youth** services*

*Activity 11. **Social and health** services*

*Activity 12. **Communication** services*

*Activity 13. Territorial Development Strategic Plan (**EGTC**)*

*Activity 14. Pilots assessment and **capitalisation***

TAMSALL Project: Governance

PROJECT STEERING COMMITTEE

supervisory body for the project execution

Proposed composition:

**Libyan Ministry of Local Governance
National Ass. Libyan Municipal Councils
Representatives of Nicosia Initiative and
Jabel Nafousa municipalities
Delegation of the EU to Libya
Committee of the Regions
ART-ER, Informest, EURADA
*Coordinator: ART-ER***

SCIENTIFIC STEERING COMMITTEE

*consulting body for the scientific and
technical aspects of the project execution*

**Members will be chosen among experts on
the technical topics that are considered
relevant for the project implementation**

Coordinator: Informest

PROJECT MANAGEMENT COMMITTEE

decision-making body for the project execution

Members: ART-ER, Informest, EURADA

Who we are: ART-ER

TAMSALL Coordinator and the Consortium for fostering Emilia-Romagna region's **sustainable growth** through:

- **territorial development** and **attractiveness**
- **innovation** and **knowledge**
- **internationalisation**

International experience in decentralization and local governance processes, e.g.:

- Lebanon: UNDP Host Community Support Project (2015)
- Libya: CIVIL INITIATIVE I and II (2013–2016)
- Libya: EU-Libya Health System Strengthening Programme (2017)

Who we are: INFORMEST

- Lead partner, partner and implementing body of several EU projects for the **socio-economic** and **territorial development** of **Friuli Venezia Giulia** region.
- Friuli Venezia Giulia Autonomous Region's agency supporting capacity-building actions to enhance the programming and project management abilities **of regional and local public administrations** and their stakeholders.
- Specific experience in **cooperation with Libyan authorities** at municipal level for enhancing fishing sector opportunities and liaison with Italian regional stakeholders, in the framework of the Nicosia Initiative.

Who we are: EURADA

- **77 members** throughout 22 countries in the EU and beyond, working on economic development.
- Facilitation of its members' inter-**connection** with worldwide economic development practitioners such as RDAs, business partners and with European Institutions.
- Promotion of innovative and transferable techniques in the field of **local and regional socio-economic development** and the dissemination of relevant information on community policies and best practice.
- Extensive experience of technical cooperation with the European Commission and EU institutions.
